MENTOR TRAINING AND CLE

As a Mentor, you provide invaluable experiences to our students through your practice. These are experiences we simply cannot provide in a typical classroom. I have many mentors ask me questions about how best to supervise students so they get the most out their time in your office. At our Mentor Training we will discuss mentoring techniques and ideas for the most effective mentoring. My hope is that we will all learn from each other.

We hope you will be able to join us for this interactive session. We have also asked Professor Rebecca Aviel to join us for an ethics discussion. We will be offering 2 CLE credits (one general and one ethics; credit being applied for).

The afternoon session will be followed by a cocktail reception to thank you for what you do for us!
