Can not make assignments without knowledge of availability of \$s by at. T. makes dec. where to sit on basis of onija bid. ~~J~~ has learned a lesson - must discipline self against any kind of suggestion. Can't do it by rule. Will be worse when you increase in \$s of it, appointed counsel. Hi: great pity to have a lot of rules, should not bind 2 chief operators, T & Br., by rules; not a big enough problem to destroy method.

J: Is there any reason for \$s to be denied to any j? Br: no, & I did not ~~between~~ for 1962-63. ~~J. B:~~ 1 d. says that you did Br: he is in error. B: he says you did.
