

## **Daniel Magraw**

Daniel Magraw is an international lawyer with experience in international law, institutions, processes, and dispute settlement, particularly relating to environmental protection, human rights, environmental justice and climate change. He is Professorial Lecturer and Senior Fellow at the Foreign Policy Institute at Johns Hopkins University's School of Advanced International Studies (SAIS) and President Emeritus of the Center for International Environmental Law (CIEL). He teaches international environmental law and policy at SAIS, and has taught and lectured at many other institutions around the world. He has worked in local and national governments, nongovernmental organizations, intergovernmental organizations, business, and academia, in the U.S. and abroad.

Magraw has served as a consultant to the United Nations regarding environment, human rights and investment and on the U.S. National Academies of Sciences committees on genetically engineered crops and on biologic confinement of genetically engineered organisms. He is on the boards of directors of Lightbridge Corporation (a nuclear energy company) and the Universal Rights Group (a human rights think tank in Geneva, of which he is a co-founder) and was co-chair of Human Rights Watch's Advisory Committee on Environment and Human Rights.

Magraw served as an appointee in four U.S. Administrations regarding international environmental matters, trade and genetic engineering, and on many delegations to treaty negotiations and other meetings. He worked as an economist and business consultant in South India as a Peace Corps Volunteer from 1968-1972. He was Chair of the American Bar Association Section of International Law and served in other leadership capacities in the ABA, American Society of International Law and other professional organizations. He has authored many books and articles, and was Counsel for India in the Kishenganga Arbitration with Pakistan over dams in Kashmir.

Magraw has won local, national and international awards, including the Elisabeth Haub Prize (the world's premier environmental law award). He was a leader of the coalition on the human right to a clean, healthy and sustainable environment that was named as a recipient of a United Nations Human Right Award in 2023 (the first coalition to be so honored).
